Newport Daily News.

FRIDAY, APRIL 7, 1876.

GENERAL NEWS.

FROM NEW YORK.

A RESERVOIR IN BROOKLYN UNSAFE.

NEW YORK, April 6.

There are reasons for fearing the Hempstead reservoir is too weak to hold the 14 feet of water now in it. The Hempstead valley was damaged considerably by the recent storm and residents in the vicinity are fearful of the results if the 700,000,000 gallons of water in the reservoir should break loose. The Brooklyn authorities are taking preventive measures.

FROM WASHINGTON.

DETECTIVE BELL.

His Connection with General Babcock's Trial.

WASHINGTON, April 6.

The testimony of Attorney-General Pierrepont, A. O. Bradley, Colonel Luckey and General Babcock before Clymer's committee today discredits some portions of Bell's story, but the main point, that Bell was employed to do secret service for Babcock, is not contradicted. The person who employed Bell is Bradley, who was acting for Babcock, and the reason given to the committee for his employment is, that Babcock believed there was a conspiracy against the President, and was trying to discover it. The grave difference in the two stories is, that Babcock says Bell was employed to discover a conspiracy against the President, and Bell says he was employed to steal documentary evidence against Babcock from the government. It is obviously of the first importance to impeach Bell's credibility and this General Babcock tried to do today in offering despatches, which the committee declined to receive.

The President's Salary.

The Senate bill reducing the President's salary to $25,000 was passed today by the House in the shortest possible order and without division. A suggestion was made by a Republican member on the floor that the President is now in a dilemma. If he signs the bill he will virtually admit that he didn't need the $25,000 additional, and consequently will be morally bound to refund. If he vetoes the bill there will be a grand outcry. It is very likely, however, that he will let the bill become a law without his signature, a practice not uncommon with him this session.

New Mexico.

The House committee on territories has amended the Senate bill for the admission of New Mexico as a state by changing the time of holding the election on the acceptance of the constitution from November next to June 1877, thus removing the question from the excitement of the Presidential election year. The bill was also amended so as to require the posting of notices of the election of members of the constitutional convention in the Spanish language.

MISCELLANEOUS.

THE MOLLY MAGUIRES.

Confession of a Convicted Member of the Gang.

BETHLEHEM, April 5.

The confession of Jas. Kerrigan now under sentence for complicity in the Molly Maguire murders, was made public today. Kerrigan acknowledges having been a member of the Molly Maguire Society, and says the object of the organization was to kill people and burn buildings. Kerrigan details the plans made for the killing of policeman Yost at Tamaqua, of John P. Jones near Summit Hill, showing that these murders were the result of an order issued by the Molly Maguires.

THE STRIKE IN THE OHIO COAL MINES.

The Collieries to be Started Up with Green Hands.

CLEVELAND, April 6.

Some of the most extensive coal operators in this city are preparing to resume work at their mines in Tuscarawas valley, filling the places of the strikers with green men. Guards are being hired and sent to the mines, to protect the workmen. Trouble is anticipated with the strikers.

SALE OF BLOODED STOCK IN IOWA.

WEST LIBERTY, Iowa, April 6.

The sale of S. W. Jacob's herd of Wapsie short horns, composed of one hundred and sixty cattle, took place yesterday. The highest price was paid for Peri, second, of Lindale, $7050. The total receipts were $87,000; average, $630. Mr. Sumner of Woodstock, Conn., bought the third, Lady Brampton of Wansie, for $1450, and Highland Maid, fourth, for $1700.

NAIL WORKS BURNT.

500 Men Out of Employment.

WHEELING, W. Va., April 6.

Last night a fire at Benwood, W. Va., completely destroyed the Benwood Nail Works together with about 25,000 kegs of nails. Everything belonging to the works, including two factories, a forge, cooper's shop and storehouse was destroyed. Five hundred persons are thrown out of employment.

CHARGES AGAINST THE PROPRIETOR OF THE BOSTON PILOT.

BOSTON, April 6.

The Springfield Republican today, says that in settling the affairs of Patrick Donahue, proprietor of the Pilot, the Catholic newspaper, of this city, who recently went into bankruptcy, facts of a most disgraceful character come to light. It seems that for many years Mr. D. has been in the habit of receiving funds from persons who wished to place them in safe hands. He had the unlimited confidence of the public, especially of the Irish Catholics, who counted him one of their best friends. During the past few years he has been the recipient of thousands from this class of people. Many an Irishman dying has left his little property to be cared for by Mr. Donohue, and others living have laid by with him their scanty savings. Mr. Donohue, as president of the Emigrant Savings bank, also suggested to ignorant depositors that he would receive their money just the same as the bank did, would invest it for them and pay them 7 per cent. interest. In this way thousands of dollars were taken, he knowing all the time he was bankrupt, and could never repay it. In settling Mr. Donohue's affairs, it is found that the trust fund confided to his care, and the money received on deposit as just described have been put into his business and lost. The suffering which will follow this breach of solemn trust cannot fail to be very great. It is a matter of some doubt whether Donohue has laid himself open to prosecution on criminal charges, though it is thought by some that he has.

RHODE ISLAND AT THE CENTENNIAL.

RHODE ISLAND IS TO SHOW A BUILDING AT THE CENTENNIAL EXPOSITION. — WE SHALL HAVE ABOUT 160 EXHIBITORS AT THE SHOW.—WHAT OUR STATE WILL EXHIBIT.

[From the Providence Journal.]

We are glad to learn that it is the intention of Gov. Lippitt and the Rhode Island commissioners of the centennial commission to erect forthwith a convenient building within the grounds, as the headquarters for visitors from this state. The expense of erecting this building will be defrayed from the appropriation lately made by the General Assembly, the expenditure of which was placed in the hands of the gentlemen referred to.

The design for the building was made by Gen. William R. Walker, architect of the new hotel. It presents a front of forty feet, by thirty-five feet in depth, and will contain apartments for ladies and gentlemen. A man and woman will be in attendance to wait upon visitors and take charge of overcoats, shawls, umbrellas, and parcels left for safe keeping. A book will be kept in which visitors may enter their names and the names of the hotels or boarding-houses where they may be found. This will be an excellent arrangement, for, without such a place, it will be impossible for friends to find each other.

Most of the Northern and Western states have erected buildings for a similar purpose to the one about to be erected for Rhode Island. Some of these are large and elegant. Ohio is putting one up of her peculiar yellow sand-stone. New Jersey has a very large and elegant structure. Massachusetts and New York have also imposing buildings. Several other states have houses finished or in progress. Some of the buildings of foreign countries, nearly all of which are already finished, are very beautiful and at the same time characteristic. England has a large building of two stories, a model of an old English house at Chester. This is the largest of these national headquarters. Spain has nearly completed a building in the Moorish style of architecture, while Japan has given us a perfect model of a Japanese house. Indeed, the latter was the first one completed in the grounds. It is to be hoped that some of these buildings, so characteristic of the countries, by which, and for the use of whose people, they were erected, should be allowed to remain.

Upon inquiry at the office of the centennial commission, in Providence, we learn that there have been one hundred and thirty four applications for space made through that office, some of which are for more than one article, or kind of machinery; and that, besides these, many applications have been made direct or through the agents of manufacturers in New York and Philadelphia. Hence the precise number of exhibitors from Rhode Island cannot be ascertained until the printed catalogues are issued. We presume, however, that the number will reach one hundred and sixty at least, perhaps more. The industrial products from this state will embrace a great variety of cotton and woolen fabrics, probably every kind produced in the state. Manufactures of iron, brass, lead and other metals, including steam engines, locomotives, fire-arms, safes, files and other tools, wood-screws, stoves, furnaces, horse-shoes, etc.; productions of leather, embracing the numerous articles used by manufacturers; and manufactures of india-rubber, by the National Rubber Company. This enterprising company will not only exhibit specimens of all their productions, but will have with their exhibition, from ten to twenty persons, men and women, employed in making their various goods, and showing the process of manufacture, from the crude material to the finished goods. Should a visitor, the emperor of Brazil, for instance, or General Grant, wish a pair of the elegant shoes of this company, their measure will be taken and the shoes delivered within five minutes. In machinery we will not undertake to specify what show we shall make; we only know, from the record of the office referred to, that all our leading machine shops will be represented, and; furthermore, that some very important pieces of machinery,, made under recent patents, will be exhibited on this occasion. In our display of silver ware we think we shall surpass all others, no pains or expense having been spared by the Gorham Manufacturing Company to make their exhibit as complete and elegant as possible. We shall also make a fine show in our tortoise-shell goods, in which department Rhode Island stands preeminent.

In the department of fine arts we found but a single application on record from our painters. But one artist in Providence moved in the matter, although notice was given in all the newspapers, inviting contributions of pictures. However, we are glad to be able to state that within a fortnight a gentleman of this city took up the matter in earnest, called upon the various Rhode Island artists, including those living in Providence, Newport and Boston, and succeeded in collecting a number of pictures, which were sent to Boston, where they were to be examined by a committee of artists, appointed for the purpose by the centennial commission. We are in ignorance as to the number of pieces accepted, and only know that among those submitted for inspection were pictures from the easels of Messrs. Staigg, Robinson, Waterman and Bannister. As to the other artists we are not informed, but think others will be represented.

There will be a good show of the mineral products of the state. This department was taken in hand by the Providence Franklin Society, and we learn from Dr. W. O. Brown, its active president, that there will be a perfect exhibition of our minerals, the variety of which is large, including our coals, ores, granites and other building materials. In the department of education we shall also make a respectable show.

In giving this brief sketch of the industrial exhibit of Rhode Island at the great centennial exhibition, we regret to state that one of our large interests, the aggregate product of which has heretofore been nearly four million dollars, will not be represented. We refer to jewelry. We understand that there are about one hundred and fifty manufacturing jewelers in Rhode Island, yet they stand alone among all our manufacturers unrepresented on the great occasion referred to.

Last, though not least, among the exhibits from this state, is the great Corliss engine of 1400 horse power, of which we gave a detailed description a few weeks since. This engine is nearly set up and will be completed and set in motion next week. Crowds daily assemble around as each huge casting is put in its place. As we have before stated, this engine furnishes the motive power for the machinery hall.

Miasma Rendered Powerless.

The most certain way to render powerless the miasmatic vapors which produce chills and fever and other malarious disorders, is to fortify the system against them with that matchless preventive of periodic fevers, Hostetter's Stomach Bitters. The remedial operation of the Bitters is no less certain than their preventive effects, and they may be relied upon to overcome cases of fever and ague which resist quinine and the mineral remedies of the pharmacopoeia. Dyspepsia, constipation, bilious complaints, rheumatic ailments, and general debility, likewise, rapidly yield to their regulative and tonic influence. They are an incalculable blessing to the weak and nervous of both sexes, an excellent family medicine, and the best safeguard which the traveler or emigrant can take to an unhealthy climate. apr5-1w-n&j

APRIL 1876.

WITHIN the coming week all bills due the undersigned for merchandise sold in the first quarter of 1876 will be presented for payment. It is of much importance to him that these bills (all fully due by terms of sale) be paid with promptness, and he decidedly requests those receiving them to do so. The day of unlimited credit has passed away in most parts of the world, but the old lingering habit still survives in Newport to a lamentable degree. Let all try to break themselves from it and adopt the more just and rational way of payment when due.

Price Reduced Until the First of July Next.

Price attached to furnace $38. Better pay for a Governor that will surely prevent the escape of poisonous gases from your furnace, then save your money, and breathe a tainted atmosphere, suffer from the inconvenience of coal dust, unevenly heated rooms, and danger from fire. You need a Governor more in the Spring months when you use the damper; one smoke pipe damper to check the fire.

THE DAY.

Thirty-two lives were lost by the ferry-boat disaster at Aberdeen, Scotland, on Wednesday.

It strikes us that a Reform Club had better elect officers whose names it isn't ashamed or afraid to have published.

Dr. Nathan Durfee of Fall River died yesterday at the age of 76; also Daniel Low, a retired New York merchant, aged 84; and Bishop Joseph Johns, aged 80.

The full returns of Wednesday's election for governor give Lippitt, Republican, 8357; Howard, Prohibition Republican, 6385, and Beach, Democrat, 3602 votes.

The transfer boat Maryland went ashore at Vineyard Haven, on Wednesday, after smashing into several schooners at anchor near by. Her upper works were seriously damaged.

An interesting discussion occurred in the Congregational ministers' meeting yesterday, between Drs. Buddington and Beecher, on a question involving grave ecclesiastical responsiblity. The investigation of Mr. Beecher's guilt or innocence is to be referred to a committee of five, who will invite all persons possessing evidence against the Plymouth pastor to present it forthwith.

The bill for the abolition of capital punishment was indefinitely postponed in the United States Senate yesterday. The Hamlin third class postal measure was further discussed, and an adjournment taken until Monday. The House passed the bill fixing the salary of the President at $25,000 per annum after the 4th of March next, the bill proposing a uniform rate of interest throughout the country was tabled, the Hawaiian treaty measure discussed and the legislative appropriation bill advanced several sections.

MR. DANA'S REJECTION.

[From the Philadelphia Times.]

These men who rattle around in the places once filled by the Sewards, Sumners, Clays, Websters and Calhouns have set up new standards for the occupants of high positions under the government and permit no appointee of the executive to be confirmed who does not fully meet their peculiar requirements.

[From the Boston Herald.]

Massachusetts ought to be getting used to snubs at Washington. Charles Sumner, Mr. Motley, Judge Hoar and R. H. Dana, have not been good enough to suit the Senate that is led by Cameron, Conkling, Morton, Logan and others of that ilk. Probably Simon Cameron's remark that "these G—d d—d literary fellers are getting to have too much importance in this government" explains it all.

[From the New York Evening Mail.]

So far as Mr. Dana is concerned, he is to be congratulated. He has now the pleasure of reading in the best newspapers of this country and Great Britain eulogiums upon his ability, literary productions and personal character, such as few professional men ever receive, before or after death. The public controversy over Mr. Lawrence's personal attacks on Mr. Dana's character has enabled the best men of the country to see how little foundation there has been for the occasional outbursts of Lawrence's malignity. Mr. Dana can continue his professional labors, with the happy consciousness of being the best advertised lawyer in all New England, and if he should visit Old England his reception there would doubtless be as cordial and flattering as though the Senate had completed the wise action of the President.

[From the Boston Advertiser.]

If he had not written the letter, but had gone to Washington to plead his own cause, and had attempted to convince Mr. Cameron, Mr. Morton and Mr. Hamlin that although he had been two years before the mast he was no pirate, it is impossible these gentlemen would have reversed their decision; but is it probable? They had decided against him ostensibly on the grounds of "literary piracy," but really, as everybody knows perfectly well, because they hate the type of political and civil character which Mr. Dana represents; and he could not have overcome their scruples on that account. His letter may have intensified their feeling, but did not create it. General Butler may have had some influence in confirming their instinctive dislike; but he, too, in our judgment, has had quite too much credit given him in this matter. * * * But it is of small consequence now what the prevailing motives were. Here in New England we know they were insufficient, and we believe the country at large will so regard them. A minority of the Republican Senators have been able to gratify their prejudices in a most unworthy way, and the country loses the service of the best intelligence and of spotless character at a post where these qualities were never before so much needed as now.

[From the New York Times.]

The result will be generally regarded as thoroughly discreditable to the body which is responsible for it, and the methods by which it has been accomplished will not increase the public respect for the influences which govern the action of the upper house. The most active opponents of Mr. Dana were men hardly entitled to a respectful hearing before the Senate, and the reasons urged for his rejection were as inadequate as they were contemptible. So weak was the case against Mr. Dana that throughout the entire discussion of his claims, only one set speech has been made adverse to his confirmation. Whether Mr. Dana has been rejected on the "literary piracy" charge or on account of his plain-spoken letter of refusal to plead his cause in person, he can well afford to put up with his disappointment. The one ground of objection was too frivolous to be entertained by any intelligent man, and the other, instead of being an objection at all, raised Mr. Dana in the estimation of all impartial minds. It is to be hoped that the excessive sensitiveness of the Senate to the slightest reflection upon the character of nominees to foreign missions will not be proved to have ended, as well as begun, with Mr. Dana's case.

[From the Boston Transcript.]

The only thing that evolves itself distinctly in the astounding course of the Senate in the rejection of Mr. Dana, is the prejudice among the dominant elements at Washington against Massachusetts, or rather what it represents in politics. The action of the Senate has been one purely of prejudice. No reason has been given, or rather only a shifting and inconsistent changing of reasons such as marks a dogged determination to follow prejudice at the last, reason or no reason. Whatever has cropped out in the reports of "interviews" with Senators and of their speeches in executive session has been confirmatory of the belief that it is a sectional, arising out of a class, prejudice that has carried the day. The baser elements of the country are tired of Massachusetts prestige and leadership, just as the mob of Athens got tired of and ostracised their most eminent patriot. Mr. Dana was a peculiarly representative Massachusetts and Boston man, almost the last of the breed remaining to whom any political honors were likely to fall. It was inevitable that the low toned "group" who have of late years "run" the Senate and the administration, should seize upon the hint which nobody less audacious than Butler could ever have conceived, of striking down this representative gentleman and scholar in politics with all that he represents, while there was yet time for them to do it. The work has been actively prosecuted during the last ten years, until Massachusetts has been reduced to the general level, and perhaps a little below it, in public influence. When it comes to be possible for such men as the coarse corruptionist Cameron and the political-machine master Morton, under whose management the service abroad has been dishonored by such men as Sickles and Schenck, to criticise and cast out a man of Mr. Dana's attainments, Massachusetts may well expect to occupy modest seats in the public councils. It still has its duty and responsibilities to the country, however, and will not be found wanting in the approaching hour for action.

[From the New York Evening Post.]

A more disgraceful act was never committed by any legislative body than has just been committed by the Senate of the United States in the rejection of Mr. Dana. Here is a man in every way competent to the office for which he was proposed—a man of honorable life, of high character, of unusual talent, of great public capacity, and almost universally approved by the people; but whom the Senate will not approve because he resented in a manly and self-respecting way the malignant intrigues of two unworthy enemies, and the hasty conclusion of a committee on which these enemies had imposed. Considerations of public policy and even of public decency have been set aside for the indulgence of private piques and the resentment of fancied wrongs.

We take it for granted that nobody has been deceived—not even the committee of the Senate of which that lifelong political scoundrel, Cameron, is chairman—by the malicious falsehoods of Butler. * * * Those immaculate and fastidious patriots, Morton, Cameron and Conkling, who have stood ready at all times to confirm the most ignoble nominations of General Grant—a Williams for the Chief Justiceship, a Billings for the Louisiana district—revolt at the best nomination that he has ever made. Their instincts detected in Mr. Dana a natural enemy—the enemy of their entire style of political life, and of course of their political aspirations—and he was sacrificed. At a time when the purification of office is the universal demand of the people; at a time when we are smarting under the opprobrium that has been inflicted upon us by an unworthy agent at the British court; at a time when the President, arousing himself from his usual stolid indifference, selects a bright and untarnished name to repair the mischief already wrought in Europe, these Senators, who have never achieved any higher fame than that of mousing politicians, take the occasion to gratify their low and jealous malignity. * * * Martin Van Buren was refused the mission to England, as Mr. Dana is now refused, but Martin Van Buren was adopted by the people, as we have no doubt Mr. Dana will be. The people of his state may yet send him to the Senate which rejects him, or the people of the United States may elect him to be its presiding officer. "Bristow and Dana" is not a hard-sounding phrase; suppose that before the end of the year we should hear it from a million mouths!

SHERMAN AND THE SERGEANT.—When at Fort Hamilton the other day Gen. Sherman noticed a young looking, but stalwart orderly sergeant in one of the casemates and, walking up to him, said:—

"How old are you?"

"Twenty three, general."

"You are a very young man to be an orderly sergeant. Is this your first enlistment?"

"Yes, general."

"Then, remember," replied the general, "that it is such men as you that Congress is going to make lieutenants. Do you know any mathematics?"

"Very little, general."

"Then get books and begin at once. It is just such men as you that we want. To what state do you belong?"

"To South Carolina."

"South Carolina!" said the general, musingly, as he turned and left.

BIRTHS AND DEATHS IN JOURNALISM.—The newspaper report of George P. Rowell & Co., for the week ending April 1, shows that twenty four journals have been established and nineteen ceased publication in that time. The new journals are two dailies, fourteen weeklies, six monthlies and two quarterlies. Those discontinued comprise two dailies, one semi-weekly, thirteen weeklies, one semi-monthly and two monthlies.

LOCAL AFFAIRS.

—John Waters & Co. expect to get the Metropolis off today.

—The Rev. Mr. Magill will begin his rectorship of Trinity church the Sunday after Easter.

—Jeremiah Peabody the present street commissioner will be in the field for re-election.

—The friends of both Mr. Ballow and Mr. Slocum are in earnest and will push things at the coming election.

—The vote at Middletown was as follows: Lippitt, 78; Howard, 102; Beach, 18; Sisson, 77; Chadsey, 103; Slocum, 18.

—The Rev. Prof. Thayer of Andover Theological Seminary will preach next Sunday at the United Congregational church.

—George W. Parsons of Columbus, O., has rented the cottage of the Misses Hazard on Kay street for the season.

—William H. Ashhurst, who has been spending the Winter in Philadelphia arrived home this morning and is at his residence on Bellevue avenue.

—The schooner Mary Augusta went ashore on Block Island Monday night. The crew were saved, but the vessel will probably go to pieces. Her cargo of coal will be lost.

—New Shoreham gives Lippitt 67 votes; Howard, 56, and Beach 112. Ray S. Littlefield is elected senator, and Joshua T. Dodge, representative—both Democrats, and present members.

—The recent heavy rain flooded many cellars in this city and pumps are in operation in all sections. Many cellars never afflicted in this way before are now very respectable reservoirs.

—The Young Men's Reform Club was fully organized last evening and is now ready for business. The meeting was largely attended and considerable enthusiasm prevailed.

—The steamers Bristol and Providence will take the place of the Old Colony and Newport Monday night. The latter two boats will be repaired at once and will be placed on the line again soon.

—The benefit concert by the band from the Perkins Institute for the Blind, given at the Opera House last evening, was an excellent one. Mr. Baker, comedian and piccolo soloist, gave great satisfaction. It is to be regretted that the attendance was not large.

—The members of the African M. E. sabbath school are making arrangements for a centennial concert and exhibition to be given in Touro chapel on Thursday evening of next week. The programme will consist of songs, recitations and tableaux with many of the participants dressed in ancient costume. Tickets are on sale at Rogers's music store.

—Quite a disturbance occurred in the lower part of the city at about half-past six o'clock last evening, the chief actors in which were John Manning and a man named Stratton. Both were drunk and commenced fighting in the store of Silvia Horgan. The police were sent for and the fellows made considerable resistance. As it was the time the mills closed the streets were crowded. Officers Stevens and Carr took Manning in charge and Officers Steel and Holland took Stratton and conveyed them to the station house. They will be prosecuted.

A SMALL WRECK.—The sail boat, Gen. H. J. Hunt, valued at $1000 and owned by Capt. John Connolly of this city, went ashore during the gale of Tuesday morning on Prudence Island. She left this port Monday morning with a spar in tow for Fall River, having on board George Fenton and Michael Manion. They left Fall River on their return home the same evening, the wind at the time blowing very heavily from east southeast. She made her way to the north end of Prudence Island and anchored. A few hours afterward the wind came out northeast and the boat was blown ashore. Its occupants had to remain on board till morning and they had a perilous time of it. The sea broke over the boat all night and the rain came down in torrents. When daylight came they saw where they were and managed to get ashore. They went to a farm house where they were kindly cared for until yesterday morning when the light house keeper on Prudence Island set them across the bay in a boat to Middletown, from which place they walked to this city. Their friends were somewhat alarmed at their absence but did not dream for a moment that they had been wrecked. Capt. Connolly has gone up to Prudence today to see what he can save of his boat.

BLOCK ISLAND.

SCHOONER ASHORE.—Through the night of the 3d inst., the schooner Mary Augusta, Captain J. W. Holt, lay off and on with double-reefed sails, between Montauk Point and the north-end of Block Island. On the morning of the 4th, Capt. Holt cast anchor off Sandy Point, a heavy storm having set in from the southeast. During the day the wind steadily increased, changing gradually northward. By 9 P. M. of the 4th, although the schooner had three anchors overboard, she began to drag preceptibly. At 9:30 she parted two of her cables, and drifted rapidly to leeward. Finding that the third anchor was of no avail, the captain tried to slip the cable, or cut it, but was unable to do either. At 11 P. M. she ran aground off Sandy Hill. As she struck she inclined slightly seaward, so that the waves broke over her deck. The men sprang aloft, and there, for seven hours, they clung to the rigging, a storm of snow and rain beating upon them, and the cold waves sweeping white below. They were seen from the shore in the morning, and a boat manned by Messrs. Edward Hayes, John Dunn, Augustine Dunn and Edward Sprague succeeded in bringing them ashore in safety. There were four men and the captain. They had not slept for two nights, and by exposure were almost exhausted. They went to the house of Mr. Edward Champlain, near by, where they found the comforts of home. According to the statement of Capt. Holt, the Mary Augusta, of Ellsworth, Me., was built ten years ago, at a cost of $16,800. She sailed last from Philadelphia, bound for Somerset, Mass., having in her hold a cargo of two hundred and seventy three tons of hard coal. The cargo only is insured. She is lying at present on a bottom of rocks and clay. She grounded at high water. As the tide recedes, she settles in the clay. Lying as she does, careened toward the sea so that the waves break across her deck, it is probable that she will go to pieces, with no chance of saving the cargo.

TOWN MEETING.—On Wednesday, April 5, was polled the largest vote known in this town for eleven years, and the town meeting was the most largely attended of any occurring within that period. Mr. Ray S. Littlefield received 180 votes for senator. No opposition. Mr. J. T. Dodge, Democrat, received 180 votes for representative, and Alvin H. Sprague, Prohibitionist, 58.

On the state ticket, the Democrats polled 112 votes, the Republicans 67, and the Prohibitionists 56.

RELIGIOUS.—Five candidates were baptized Sunday, the Rev. S. T. Livermore officiating. The day was beautiful, and the ceremony impressive.

On Sunday evening a Sunday-school concert was held in the First Baptist church. The little ones did credit to the training they have received. After the concert a collection swelled the amount already obtained to fifty dollars, which, with fifty dollars promised by Judge Ingals, of Troy, N. Y., on condition that a like amount is raised on the island, will enable the Sunday-school to procure a good nucleus.

NEARLY A PREACHER.

An official of one of the railroads centring in Detroit was yesterday beset by an old man for a railroad pass to Grand Rapids. The stranger entered the office with a big cane in his hand and a "woodsy" air. He looked as if he had entered town after an all night's wrestle with a bad dirt road, and he had no sooner stood his cane up in the corner than he briskly inquired:

"Are you the free-pass man?"

The official hesitated a little, and the stranger amended his query by asking:

"Would you give a preacher a pass to Grand Rapids?"

"Are you a preacher?"

"Kinder."

"You give me your word that you are a preacher, do you!"

"N—ot exactly," stammered the stranger. "I don't say I'm regularly ordained."

"We can give passes to clergymen occasionally, but we must know that they are active dispensers of the gospel."

"That hits me," cheerily replied the old man, rubbing his hands. "I calculate I dispense more gospel than any one man in Antrim County!"

"But you just admitted that you weren't a preacher," said the official.

"Not a regular, 'squire. I'm what you might call assistant to regular preachers. I'm sexton of a church, I can lead at a prayer meeting and I've started all the hymns that have been sung in Antrim county for five years past."

The official smiled faintly, and the stranger was encouraged to go on:

"I'm nearly a preacher. Folks send for me when they are dying. I keep order at camp meetings, and if anybody's to be dragged out of the school house for snapping beans during prayer meeting I'm the one who does the dragging."

"That's hardly being a regular preacher," replied the official.

"No, of course; but it's mighty close on to it. It's so near that I hate to walk to Grand Rapids. I'm on call, judge. If our preacher should suddenly give out I'd be the only man within fifteen miles who could stand behind his pulpit and take his place. They all know it, and I'm respected accordingly. More'n half the people call me 'parson' or 'deacon,' and fellers who have got into a jaw about Daniel in the lion's den or Moses in the bullrushes have walked five miles to have me set 'em right."

The official made out a trip pass, and, as the stranger returned thanks and picked up his cane, he added:

"I won't take up any more room than I can help, and I'll leave my satchel if you think the cars'll be loaded too heavy. You have lent this pass to the poor, and it's treasure laid up in heaven for you, where I hope some day to meet you and tell you how good it felt to roll along in your cars after jogging for eighty five miles on foot."—[Detroit Free Press.

CONFESSED WHAT SHE NEVER COMMITTED.—[The German papers are exercised over a remarkable murder trial, in which the defendant, although confessing to having committed the murder, was yet proved to be innocent of the crime. About six months ago, Mrs. Anna Thormaelen confessed to the Hamburg authorities that she had murdered her husband, who died April 5, 1875. According to her confession she had given him morphine in the shape of self-made pills. She further stated that in 1869 she fell in love with her father's clerk, Mr. Schelenz was not yet able to support her he soon broke off the match; and, in 1870, the girl married a banker in Hamburg—the late Thormaelen—without loving him. Of course she was unhappy with her husband, and she concluded to poison him. She obtained morphine and, according to her own confession, gave it to her husband in his beer. He vomited it up, was laid up on the 5th of April, and during the night she made a pill with four grains of morphine with water, gave it to her husband, and he died. The physician, who was called in before the husband died, pronounced apoplexy the cause of death, and dissection of the corpse unnecessary. So much for her confession. The authorities arrested her, and her trial has just been concluded. The body of Mr. Thormaelen was dug up and analyzed. The chemists found no trace of morphine, but gave as their opinion that Thormaelen could have died of morphine, and yet it might be impossible to prove it by analysis so long after death. The evidence was heard and the prisoner's counsel—who, by the way, was retained against her protest—showed that Mrs. Thormaelen, after the death of her husband, went to visit a clergyman, to whom she confessed the murder of her husband. Nevertheless, the jury found that Mr. Thormaelen had not come to death by poison at all, and Mrs. Thormaelen was discharged from custody. It was shown that her husband's death had preyed so fiercely upon the mind of this unfortunate woman that she imagined herself guilty of his murder. With her natural desire for romantic fame, with her craving for imaginary sufferings, she finally considered it a blessing and a fame worth toiling for to die on the scaffold. She was disappointed.

HEART VENTURES.

The Rev. Dr. Behrends, of Providence, in a sermon on "Faith," recently delivered, repeated the following lines.

I stood and watched my ships go out
Each one by one, unmooring free,
What time the quiet harbor filled
With flood tide from the sea.

The first that sailed, her name was Joy,
She spread a smooth, white, ample sail;
And eastward drove with bending spars
Before the singing gale.

Another sailed, her name was Hope,
No cargo in her hold she bore;
Thinking to find in Western lands
Of merchandise a store.

The next that sailed, her name was Love,
She showed a red flag at the mast—
A flag as red as blood she showed,
And she sped South right fast.

The last that sailed, her name was Faith,
Slowly she took her passage forth;
Tacked and lay-to: at last she steered
A straight course for the North.

My gallant ships they sailed away,
Over the shimmering Summer sea,
I stood at watch for many a day—
But one came back to me.

For Joy was caught by Pirate Pain—
Hope ran upon a hidden reef—
And Love took fire and foundered fast
In whirling seas of Grief.

Faith came at last, storm-beat and torn.
She recompensed me all my loss.
For as a cargo safe she brought
A crown linked to a cross.

The Springfield Republican calls attention to the interesting politico-ethnological fact, that rulers of this species are not entirely unknown outside of India.

......George W. Curtis having denounced Senator Conkling as an unfit person to be nominated as Republican candidate for President, the World now calls upon him to denounce Morton, Blaine and Hartranft as equally or more unfit. It does look invidious in Mr. Curtis to "go for" Conkling alone. Why will not he separate the sheep from the goats and tell us who besides Bristow will fill the bill?

He is a fearless and independent man, and can neither be driven nor bought."

......The following parts have been assigned to the managers in the impeachment trial of W. W. The opening will be by Mr. Lynde. Each manager is to sum up the case if permitted, or each may hand in and have printed with the proceedings his argument.

Dr. Schenck's Standard Remedies.

The standard remedies for all diseases of the lungs are SCHENCK'S PULMONIC SYRUP, SCHENCK'S SEA WEED TONIC, and SCHENCK'S MANDRAKE PILLS, and, if taken before the lungs are destroyed, a speedy cure is effected.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary diseases.

The Pulmonic Syrup ripens the morbid matter in the lungs; nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, the patient has rest and the lungs begin to heal.

To enable the Pulmonic Syrup to do this, Schenck's Mandrake Pills and Schenck's Sea Weed Tonic must be freely used to cleanse the stomach and liver. Schenck's Mandrake Pills act on the liver, removing all obstructions, relax the gall bladder, the bile starts freely, and the liver is soon relieved.

Schenck's Sea Weed Tonic is a gentle stimulant and alterative; the alkali of which it is composed, mixes with the food and prevents souring. It assists the digestion by toning up the stomach to a healthy condition, so that the food and the Pulmonic Syrup will make good blood; then the lungs heal, and the patient will surely get well if care is taken to prevent fresh cold.

All who wish to consult Dr. Schenck, either personally or by letter, can do so at his principal office, corner of SIXTH and ARCH Sts., Philadelphia, every Monday.

Schenck's medicines are sold by all druggists throughout the country. mar6-2m-eo

SENATORS AND THE PRESIDENCY.—It recently occurred to some wiseacre to attribute to one of the Senators whose name has been mentioned in connection with the Presidency the remarkable statement that none of the Presidents of the United States had ever been in the Senate. Perhaps the number of the members of the Senate who have wished to be President and have failed has given rise to the impression that they all fail. But so far is this from being true that, if we leave out of view Washington, before whose Presidency there was no Senate, and John Adams, who was Vice President from the beginning of the existence of the Senate to the beginning of his own term, more than one half of the Presidents have served in the Senate. Eighteen persons have filled the Presidential chair, fifteen by election and three by succession from the office of Vice President. Putting aside Washington and the elder Adams, for the reasons mentioned above, we find nine Presidents who had been in the Senate. Of these, seven were elected to the Presidency and two to the Vice Presidency. Of the remainder, who reached the White House without going through the Senate, two—Gen. Taylor and Gen. Grant—were taken from the Army. Thus the number who came from political life was fourteen, and of these one-half were chosen President and two were chosen Vice President and subsequently held the higher office, leaving only five Presidents who were selected from civil life and had no Senatorial experience.—[New York Times.

PATENT

PARABOLA

SPECTACLES.

The advantages of the Parabola Glasses over the old form of Spectacles, are a greater density of material, **perfect surfaces, and Parabolic form.** These qualities, united, form the **most perfect of lenses.** In the **perfect transmission of light,** joined to their peculiar form the wearer of the Parabola Spectacles is enabled to prosecute the **most trying labors** of the eye without those distressing results which follow the use of all other glasses. A peculiar and important feature in these Spectacles is witnessed in cases where young persons have been obliged to resort to the use of glasses, from some physical debility having affected temporarily their vision. In such cases the eye soon regains its healthy powers, as the glasses can be laid aside without having had the least tendency to affect the eyes so as to demand their continuous use.

[From Dr. George McClellan, Philadelphia.]

I have recommended the "Parabola Spectacles" to several of my patients, and have received from most of them warm encomiums upon the article. They assert that these glasses do not fatigue the eyes by long use, as is apt to be the case with the double convex Spectacles, while the command of the eyes over the object of vision is much greater. This corresponds with the opinion any optician would form from his knowledge of the principles upon which these glasses are adjusted—so as to converge the rays coming from different quarters to the same focal distance. The eyes can be turned to a considerable extent, therefore, under these glasses, without involving the necessity of moving the head.

THE NEW

REMINGTON

Sewing Machine

STILL STANDS

UNRIVALLED.

All competent judges acknowledge it to be the simplest, the easiest, the quietest and the most easily handled of any shuttle machine now in market. It will sew with perfect stitch, from the finest muslin to the heaviest and firmest beaver cloth, or leather, without change of stitch, needle, thread or tension. Its percentage of increase of sales in 1874 was 93⅓ per cent and 87½ per cent. more than any other machine. In 1875 its ratio of increase was still greater, being 100 per cent. More than fifteen thousand other machines of first-class make have already been exchanged for it.

No person wishing a sewing machine can do themselves justice, whatever their prejudice, if they fail to examine the **New Remington** before purchasing. Five dollars a month will buy you a Remington at 35 BROADWAY.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."
CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a man more competent and trustworthy and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

"MR. R. H. EDDY has made for me over THIRTY applications for Patents, having been successful in almost every case. Such unmistakeable proof of great talent and ability on his part, leads me to recommend ALL inventors to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
